The Firearms Technology Branch (FTB) received a request to examine evidence under the above-referenced investigation number for the following Exhibit:

74. Suspected AR-15 type firearm receiver, material removal guide, three drill bits, and an end mill (see attached photo, next page).

This item is completely solid in the fire-control area, and does not incorporate indexing characteristics, such as locating features for the hammer and trigger pins. Accordingly, Exhibit 74 does not constitute a firearm frame or receiver. The Exhibit will be returned to your office.
